Introduction

Palais des Congrès - Liège

May 23rd, 2025

In 2010, the DotNethub / AgileHub association decided to create a community event to share knowledge around agile approaches.

Since 2014, [Pyxis Belgium](#) has taken over the reins of the organization.

Since the beginning of the adventure, our aim has been to make the event as accessible as possible, to as many people as possible, without ever compromising on quality.

Since then, Agile Day has become the biggest event in Belgium on the theme of agility.

At the heart of the discussions :

- Agile approaches in the broad sense (Scrum, XP, ...)
- Agile mindset
- Collaborative management
- Leadership
- or about Personal development

In 2025, the 18th edition of « Journée Agile » will take place on Friday May 23rd, in the « Palais des Congrès » of Liège.

We count on you - whether you've been supporting us from the beginning or are new partners - to make this day an exceptional event!

A more eco-responsible event!

Transport, Catering, Goodies, ...

An event like this necessarily has a significant impact on the environment.

Since 2020, we've been committed to the environment and choose - when we can - partners with a more eco-responsible and local approach.

And we also encourage our sponsors to do the same through their choice of goodies, for example.

Since 2023, we've been partnering with [ISIT \(Institute of Sustainable IT\)](#) putting them in the spotlight, and we've decided to donate part of the entrance tickets to plant trees.

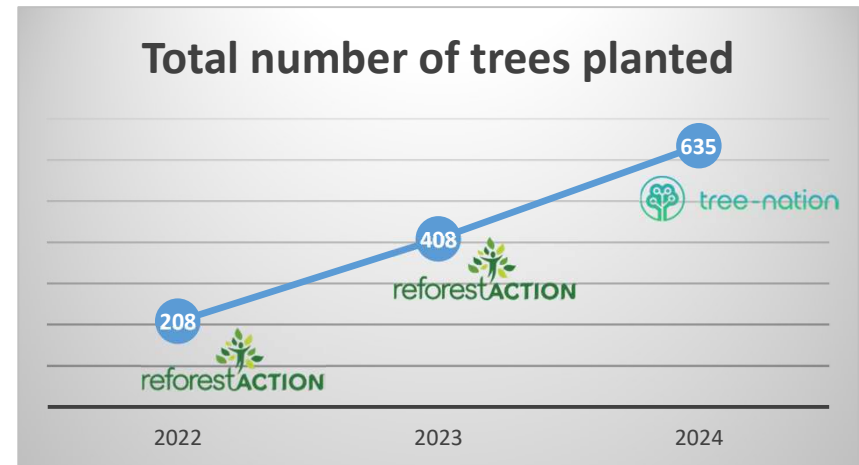

In 2024, we put the spotlight on "[The Week](#)" initiative

A small contribution, on our own scale, that we hope to increase over the years!
